- Degree of the study: **3. – doctoral**
- Duration of study: **3** (internal study) **or 5** (external study) **academic years**
- Degree: **doctor of philosophy (PhD.)**
- Guarantor of the program: **prof. dr. phil. habil. Wolfgang SCHULZE**

### Scope of the study program

The study program includes all key topics of the study file. A study program graduate gains knowledge and experience in the fields of language system, contrastive linguistics, language typology, language pragmatics, cognitive linguistics, sociolinguistics, language philosophy and methodology. The recommended course of study is designed in order to enable a participant to meet all requirements to graduate regularly in the study duration standard for the study programme.

### Profile of a graduate

A graduate of the study programme gains a competence to carry out a scientific research in a specific field on his own as an erudite internationally orientated specialist. A graduate can succeed mainly as a qualified scientist – a specialist in a branch of researches in fields of natural language, language universals, relations, penetrations and varieties in language and in studying and explaining international phenomena and processes. A branch of study graduate employed outside Slovakia can work as a scientific and research worker, translator, communication expert, theorist and professional in the field of public and mass communication.

### Requirements on applicants

It is inevitable to be a graduate second degree of university education in the same or a similar field of study. By means of an entrance examination a framework project as well as an indication of methodological and methodical approach to the chosen topic is evaluated. The same applies to a presentation of wider knowledge and understanding of scientific and professional literature and sources related to the chosen professional field.

### Faculty at the study program

The study program is carried out by accredited lecturers from university and faculty training centres, by colleagues from SAV (Slovak Academy of Science) and partnering institutions in the Slovak republic and abroad.
